# Gemini Sustain Plus: Engagement Opportunities

Based on feedback from last months Transmission WG, we wanted to share further information on how you can engage with the Gemini Sustain Plus Programme.

- **Gemini Sustain Plus Focus Group.** This will start Q3 2023 and will be a dedicated group that will to discuss specific areas of industry interest related to the programme. Details and invitations to participate will be issued later this year.
- **Utilise Industry Forums.** Updates will be given to a range of via existing forums including, Transmission Workgroup, Change Management Committee, DN Consistency Group and the National Gas Operational Forum.
- **Market Trials.** These are currently planned for Q2 2024, this is provide industry a sand box environment to familiarise yourself with the new look and feel of the system. It will also act as a way to check network connectivity, so we would therefore strongly encourage all companies that use Gemini to participate. Details and invitations will be issued later this year.
- **Training.** A new interactive training solution is being developed and will be provided 2024
- Further information can be found on the Xoserve [XRN5564](#) webpage. A dedicated webpage is in the process of being created with FAQs and will develop over the course of the programme
