

NG TRANSMISSION CHANGE HORIZON

Key Points

- UNC Modification 761 timeline estimated as uncertainty on expected decision date
- ROM provided for UNC Modification 846 Rough Storage Mod

Gemini Sustain Plus: Engagement Opportunities

- **Dedicated Gemini Sustain Plus Focus Groups will start in September 2023.** There will be recurring sessions over the next 12 months to support the industry to prepare for the go-live in September 2024.
- **The first Focus Group will be a physical (and virtual) meeting held in the midlands area.** This session will highlight the impacts and benefits of the changes to Gemini and include a preview of the updated User Interface. There'll also be the opportunity to ask questions and provide feedback to the programme. **Confirmed venue details and registration link will be shared in July.**
- **A Gemini Sustain Plus webpage is now live.** The webpage covers the scope of the programme along with providing answers to common queries. It will be updated periodically throughout the programme.
