

## Pre-Meeting note for DESC on 6<sup>th</sup> October 2021

### Agenda Items Summary

#### **2.0 2021/22 NDM Algorithms Update (FOR INFORMATION)**

- Update to be provided on the activities performed since DESC provided its final approval in July for the new Demand Profiles for Gas Year 2021/22.

#### **3.0 Adhoc Workplan Update (FOR DISCUSSION)**

- In July DESC provided its approval of the adhoc workplan items which the Demand Estimation Team will focus on over the Autumn and Winter period. This item will be an update on these items, specifically around the approach we intend to take and the DESC meetings we are targeting for updates

#### **4.0 NDM Algorithm Review Update (FOR DISCUSSION)**

- The latest progress from the UNC Workgroup “0754R - Investigate Advanced Analytic Options to improve NDM Demand Modelling” will be shared with DESC. The latest meeting of which is the day before DESC (5<sup>th</sup> October) – slide deck available [here](#)

#### **5.0 DESC Survey (FOR INFORMATION)**

- DESC Members and Technical Workgroup Representatives completed a short survey at the last meeting in July. This item provides feedback on the results

#### **6.0 AOB**

- Following the recent instances of large Unidentified Gas (UIG) spikes over the Summer caused by large LDZ input errors, and the discussions on this at July DESC and subsequent Performance Assurance Committees (PAC), a draft prototype of a UIG Allocation Issues Tracker will be discussed.
