

27/07/2015

Dear Colleague,

2015 Annual Interruption Tender Process – National Grid Gas Distribution Published Results

Due to the no interruptible tenders being received, no DN Interruptible Summary Reports will be published by National Grid Gas Distribution for the 2015 Annual Interruption Tender.

In accordance with Unified Network Code, Transportation Principle Document Section G (Supplies) paragraph 6.4.3, the summary Report by location (SRL file) relies on there being awarded contracts for at least three (3) Users in a location to ensure a level of anonymity. As there were no contracts awarded, this criteria was not met and therefore the SRL file cannot be issued.

Under Publications/Scheduled-interruptions, National Grid Gas Distribution will continue to invite tenders in future years. The next planned tender window will be in early June 2016 with our requirements being published in May 2016.

If you require any further assistance please do not hesitate to contact Lorna Millington on 01455 231605.

Yours sincerely

Lorna Millington
Design Manager
