

PAC Action 0206

Isolated Sites With Progressive Reads

PAC 15 March 2022

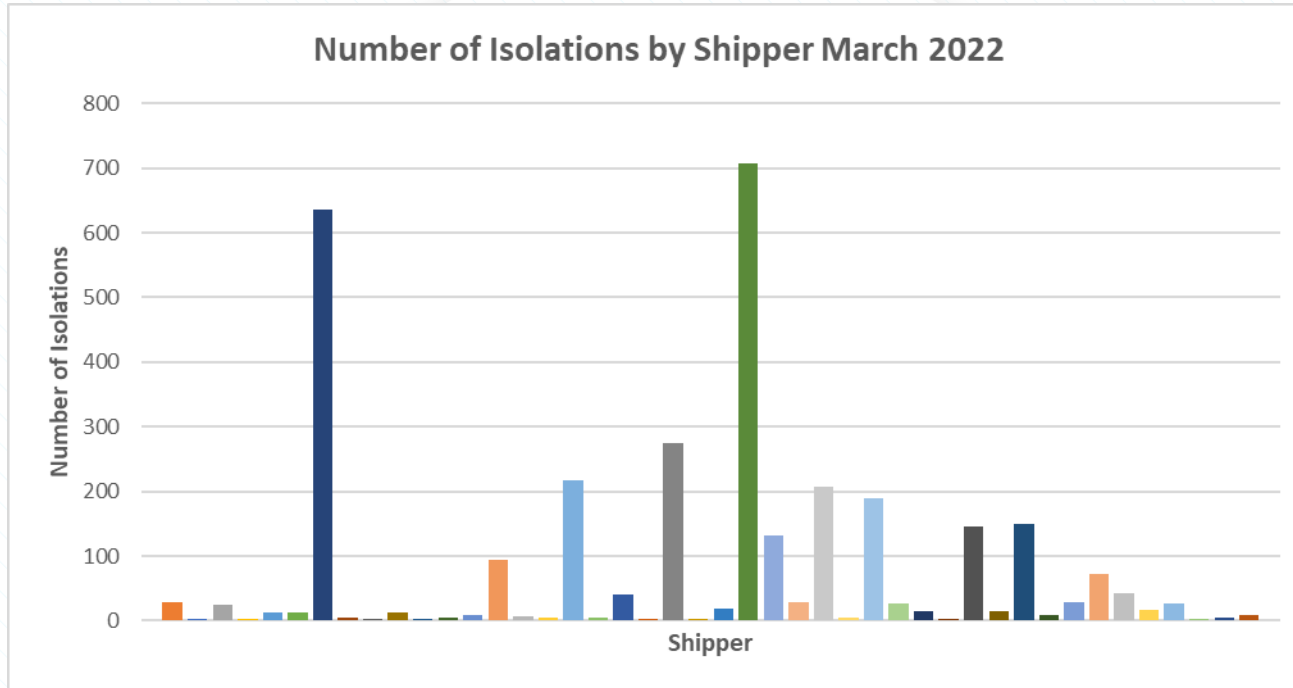

Actions Details

- Reference Isolated Sites with Progressive Reads – CDSP to write to the 7 largest Shippers involved and offer assistance in resolving their issues
- Also investigate how many of these reads are progressive reads following previous estimated reads.

Actions Taken to Date

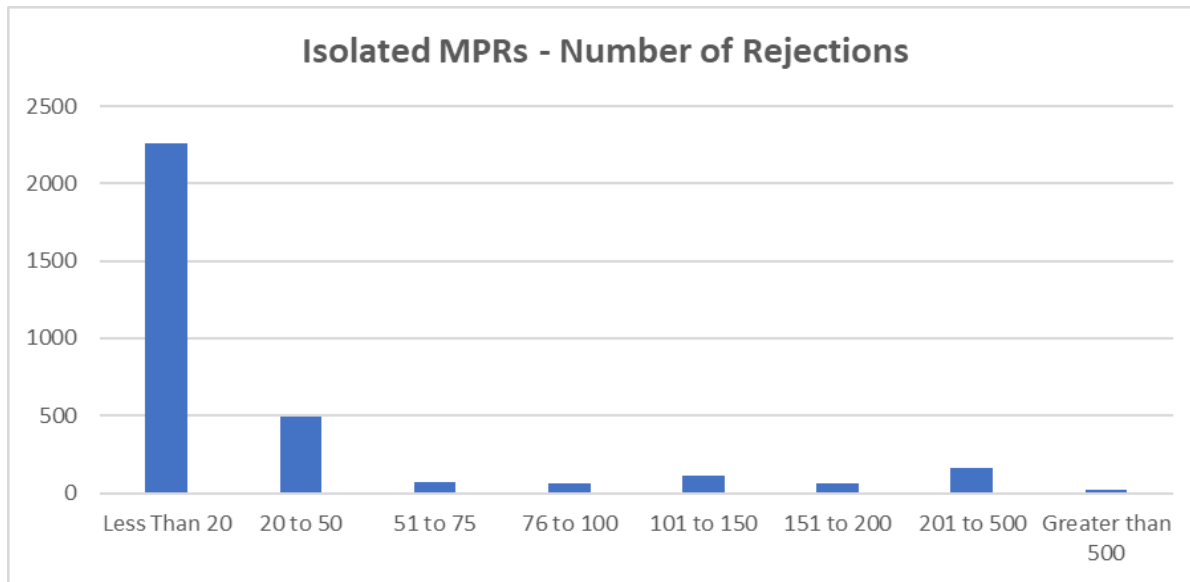

- Contacted “Top Seven” Shippers and provided datasets of Isolated MPRs with progressing reads – requested Shippers to investigate and submit RGMA updates where necessary
- Included an 8th Shipper with small number of Isolations but large AQ value for Isolated MPRs
- Requested a response of proposed resolution actions by End of March to report at April PAC

Isolated Sites With Progressive Reads – March 2022

There are now 3238 MPRs (44 Shippers) which remain Isolated with progressive read rejections. This is a reduction of 10% since the February update.

Isolated Sites With Progressive Reads

Breakdown of the 3238 remaining Isolated MPRs by Number of Rejections Post Isolation Date. 70% of those MPRs have less than 20 Read Rejections.

The logo for xserve is centered within a stylized house outline. The house has a white background with a light blue diagonal line pattern. The house's roof is a simple triangle, and the main body is a rectangle divided into four vertical panes by thin grey lines. The logo itself consists of the word "xserve" in a blue, sans-serif font. The "x" is a stylized, bold character with a dark blue left half and a light blue right half. The "s", "e", "r", "v", and "e" are in a uniform light blue color. The entire logo is positioned in the middle of the four panes of the house.
