

UNC 0626:

Updating UNC Section B to correct a number of references to the timing of processes associated with the start of a Gas Day

Proposer: National Grid

Panel Date: 21st September 2017

Why change?

- Modification 0461 aligned the GB Gas Day with the Gas Day as defined within the CAM European Code, the Modification was implemented on 1st October 2015.
 - A number of references were overlooked and consequently omitted from Modification 0461 and therefore remain as 06:00 in UNC TPD rather than 05:00

Solution

- Update UNC to correct references to state 05:00 rather than 06:00 in the following areas of TPD:
 - TPD B 4.9.1
 - TPD B 4.9.5 (a)
 - TPD B 4.10.1
- **Fast Track Self Governance is proposed as:**
 - The Modification is of a house-keeping nature – purely correcting omissions from 0461.

Recommended Steps

- The Proposer asks Panel to:
 - Agree that Fast Track self-governance procedures should apply; and
 - Agree that this Fast Track Proposal should be implemented.
