Reason for support/opposition: Please summarise (in one paragraph) the key reason(s)

The UK Link Manual had become out of date and was probably inaccurate. Therefore it required a full update. Through changes driven by the new FGO arrangements this UNC document needed to reflect it was now a Data Service Contract (DSC) document or a contract between the CDSP and UK Link Users. Modification 0613S addresses these requirements.

Following an extensive review, we are content the UK Link system arrangements aligns with the IS schedule documents and the new framework document aligns with the FGO framework documents.

This better reflects the current arrangements and improves the administration of the Code. Therefore we support the implementation of this modification.
