<b>Support or oppose implementation?</b>	Support
<b>Relevant Objective:</b>	f) Positive

**Reason for support/opposition: Please summarise (in one paragraph) the key reason(s)**

This Modification replaces an older version of the UK Link Manual in order to accommodate the changes brought about since the FGO changes on 1st April 2017 and Project Nexus implementation on 1st June 2017.

It will more accurately reflect present arrangements and therefore improves Code administration activities.

**Self-Governance Statement: Please provide your views on the self-governance statement.**

This Modification clarifies existing arrangements under a renewed UK Link Manual and proposes nothing that is not implemented already. Therefore we concur that Self-Governance is appropriate.

**Implementation: What lead-time do you wish to see prior to implementation and why?**

Implementation should be as soon as practicable following a decision to implement.

**Impacts and Costs: What analysis, development and ongoing costs would you face?**

None Identified

**Legal Text: Are you satisfied that the legal text will deliver the intent of the Solution?**

Yes
