UNC Modification Proposal 0613S - Revised UK Link Manual CDSP Data Services Document

Dear Bob,

Thank you for your invitation seeking representations with respect to the above Modification Proposal which, as proposer, Cadent Gas Limited would like to support.

Do you support or oppose implementation?

Support

Relevant Objective: f) Positive.

Reason for support/opposition: Please summarise (in one paragraph) the key reason(s)?

We believe that the measure identified within the Modification Proposal facilitates GT Licence 'relevant objective' f) 'Promotion of efficiency in the implementation and administration of the Code'. This is by the proposal seeking to ensure that the terms identified within Section 1.5.4 of the CDSP Service Document, being the 'transitional' UK Link Manual Framework Document can be met. In addition this Modification provides that an 'enduring' UK-Link Manual can be implemented.

Self-Governance Statement:

Cadent Gas concurs with the justification statement within the Draft Modification Report that this modification is unlikely to have a material effect on UNC governance or modification procedures because it brings into effect an arrangement already established by UNC Modification 0565A.

Implementation

This Modification Proposal can be implemented with effect 16 Business Days after approval by the UNC Modification Panel.

Impacts and Costs

No impacts or costs have been identified.

Legal Text

Cadent Gas is satisfied that the legal drafting and supporting text commentary published alongside the Draft Modification Report meets the requirements and intent of the Modification.

Are there any errors or omissions in this Modification Report that you think should be taken into account?

We have not identified any errors or omissions within this Modification Proposal.

Please provide below any additional analysis or information to support your representation

No additional analysis or information is necessary in support of this Modification Proposal.

We trust that this information will assist in the compilation of the Final Modification Report. Please contact me on 07778 150668 (chris.warner@cadentgas.com) should you require any further information.

Yours sincerely,

Chris Warner
Stakeholder Implementation Manager, Regulation & External Affairs
