0613S Documentation Review

- During the 0613S Revised UK Link Manual CDSP Data Services Document Workgroup, Distribution Workgroup requested that the UK Link Manual and all supplementary documents progress through Change Management Committee
 - As a result, the constituent documents were issued via the change pack process to all Change Managers
 - Change Managers were kept abreast of the changes at the monthly Change Managers Committee via its own 0613 implementation plan
 - Following a request received, all documents had their consultation periods extended, dates included in the following slide
 - All comments and responses were incorporated into the documents and responded to
 - Change Managers approved the documents to be appended to modification 0613S with no further amendments required in July
 - The 0613S workgroup approved incorporation of documents into the WG report, noting further amendments
