

Comments in respect of  
Modification 712: Additional Information in Modification Proposals and Modification Reports  
Modification 713: Ability for users to vary their Modification Proposals  
Modification 714: Use of Principles of Governance in Applying section Y of Network Code  
Modification 715: Modification Panel approval of the treatment of Representation in Final  
Modification Reports

28 October 2004

The Association of Electricity Producers welcomes the opportunity to comment on these draft modification reports. The Association would like to record its support for these proposals since they will address current anomalies, provide for greater transparency of process and lead to more efficient and effective modification arrangements. This in turn will generate more confidence in the modifications processes and the market arrangements they support.
