1 April 2005

Dear Julian

Modification Proposal 0743 : Modification of Nomination Timetable

I refer to the above modification proposal raised by British Gas Trading. It proposes that timetable is amended to allow for renominations for daily metered (DM) outputs from 15:00 D-1.

Shell Gas Direct supports this modification proposal. It should improve DM nominations by allowing shippers to submit more accurate information about expected offtakes at DM sites. In turn, this should improve the accuracy of Transco's NDM forecasts which are based, in part, on data from DM nominations. This will improve the efficiency of the operation of the pipeline system, and therefore further the Relevant Objectives.

Yours sincerely

Tanya Morrison
Regulatory Affairs Manager
