Dear Julian

RE Urgent Modification Proposal 0018 – Transitional Arrangements for the review of Annual Quantities for Gas years 2005/6, 2006/7 and 2007/8

Thank you for the opportunity to comment on this Urgent Modification Proposal.

We recognise that this Modification is largely required to facilitate the detail of the implementation of Modification Proposal 0739 (now re-numbered 0012).

We would also reiterate our request for greater transparency of the effect of these Modification Proposals. We appreciate that it would involve detailed analysis being carried out, but it is of value to the community to have this information in understanding and assessing the implications of the number of supply points affected by this proposed change to UNC.

Please contact me if you require any further information.

Yours sincerely,

Mike Young
Commercial Manager
