Abstract

Dear John

I am writing on behalf of Caledonia Oil and Gas Limited, in answer to requests for responses to UNC modification proposal 0019

Caledonia Oil and Gas Limited is a small UK independent gas producer. Its strategic focus is UK gas and has significant operated and non-operated production in the Southern Gas Basin of approximately 0.5 million therms/day. Caledonia also holds a Shipper's Licence, principally to access the market for its Dimlington & Theddlethorpe deliveries.

UNC mod 0019 should be immediately progressed for the simple reason of security of supply and daily supply reliability. Not only would the implementation of UNC mod 0019 be helpful for the coming 05/06 supply year but it also facilitates the access of future low wobbe gas in the vicinity of the Theddlethorpe infrastructure for the 06/07 supply year and beyond.

Caledonia fully supports the proposal and would support it being granted urgent status.

Regards

Jon Treen
