Dear Julian

RE UNC Modification Proposal 0029 - Metering Arrangements at Special Supply Meter Points (SSMPs)

Thank you for the opportunity to comment on this Modification Proposal.

British Gas Trading (BGT) have been actively engaged in the discussion and development of this issue in the Distribution Workstream.

We concur that it is appropriate to extend the arrangement where metering arrangements at these SSMPs (Unique Sites) continue to be covered by the provisions of the Uniform Network Code. With the particular circumstances of this small population of supply points it would not be appropriate to make provision under standard RGMA conditions.

We are supportive of the implementation of this Modification Proposal.

Please contact me if you require any further information.

Yours sincerely,

Mike Young
Commercial Manager
