Modification Proposal 0029: "Metering Arrangements at Special Metering Supply Points"

Dear Julian,

Thank you for inviting us to comment on this modification proposal.

RWE npower fully support the implementation of this proposal. We agree that metering arrangements for "Unique Sites" should continue to be covered under the Uniform Network Code. Due to the complexities of these types of configuration we believe that until enduring arrangements can be put in place

within the Commercial Market these Special Metering Supply Points should remain the responsibility of the Relevant Transporters

We hope that these views are constructive and would be happy to discuss the issues further.

Yours sincerely,

Heidi Martin
Gas Network Codes Analyst
