Dear Julian

Re: Modification 0074: Clarification of requirement for flows at DN Offtakes on low demand days.

Thank you for the opportunity to comment on this Modification Proposal.

National Grid NTS supports implementation of this Proposal.

National Grid NTS agrees that it is impractical for DNOs to comply with OAD Section I clause 2.5.2 (b) (ii) without undertaking significant investment to alter the way in which gas offtaken from the NTS is controlled. We agree, therefore, that the proposal better facilitates the relevant objectives, for the reasons put forward by the Proposer.

Yours sincerely
