Dear Julian

Modification Proposal 0074

Thank you for providing Scottish and Southern Energy plc (SSE) with the opportunity to comment on the above modification proposal.

SSE is supportive of the proposal.

If this modification were not implemented then it is likely that substantial investment would be required to all pressure controlled offtakes to enable them to take gas at a single rate throughout the day on low demand days.

By removing the requirement for this unnecessary investment this modification better facilitates the economic & efficient operation of pipeline systems. If it were not implemented this increase in cost would ultimately feed through into increased costs to customers.

Yours sincerely

Jeff Chandler
