### **Abstract**

Thank you for the opportunity to comment on this modification proposal.

WWU is supports implementation of this proposal.

This modification will better facilitate the economic and efficeint operation of the distribution pipeline systems. The current legal drafting would lead to significant investment should National Grid Transmission invoke OAD Section I 2.5.2(b)(ii).

WWU support an early implementation of this proposal to allow ourselves, and other DNOs, to be compliant with UNC once demand in and LDZ falls below 50% of 1 in 20 peak.
