Date 18th May 2006

Dear Julian,

UNC modification proposal 077: “Notice Period for Code Credit Limit Revision”

EDF Energy supports implementation of UNC modification proposal 077 as we believe that it would better facilitate achievement of the Relevant Objectives, specified in Standard Special Condition A11.1 of the relevant GT licence.

EDF Energy believes this modification improves on the previous modification 025 NGG raised by addressing Ofgem’s issues in their rejection letter dated 3rd February 2006.

By providing a greater amount of notice of change to a users Credit Code limit this will ensure that a User has sufficient time to provide additional security. This will also ensure that the arrangements are not so onerous as to increase the potential for the unnecessary demise of a credit worthy shipper and thus improves upon the original UNC modification 025.

We trust you find our comments useful. If you have any question please contact me on 020 7752 2551.

Yours sincerely

Lee Selway
