Dear Julian,

RE: UNC Modification Reference Number:- 0087 – Single Centralised On-line enquiry service – removal of redundant UNC provisions

Thank you for the opportunity to comment on this draft modification proposal.

British Gas Trading is supportive of the implementation of this Modification Proposal.

UNC Modification Proposal 0087 recognises the development of the Supply Point Information Service introduced by Modification Proposal 717 into the Single Centralised Online Gas Enquiry Service (SCOGES) within the work of the Customer Transfer Programme. We concur that this is now best accommodated within the governance of the SPAA process and that this is counter-productive to be duplicated within the UNC.

However, we would re-iterate an observation raised within the development of this Proposal that it is essential to ensure continuity between the processes. The provision should not be withdrawn from UNC until it has been fully established within SPAA.

Please contact me if you have any queries about this response.

Yours sincerely

Mike Young
Commercial Manger
