Mod 87 " Single Centralised On-Line Gas Enquiry Service - Removal of redundant UNC provisions"

Dear Julian,

On behalf of RWE npower I would like to thank you for the opportunity to respond on Modification Proposal 87. RWE npower support the implementation of this modification proposal.

With Ofgem's approval of the implementation of SCOGEs into SPAA we agree that the requirements within the Uniform Network Code to provide services contained within the " Supply Point Information Service Guidelines" will not be required.

We agree with the proposer that it is necessary to remove the current UNC obligations to avoid any dual governance inefficiencies.

However, we would like some assurance that the provision of services under the UNC will continue and will not be removed until the successful implementation of the SCOGEs, which we believe, is tabled for November 2006.

We would be happy to discuss any points that you feel need clarification.

Yours sincerely,

Heidi Martin
Gas Network Codes Analyst
