Dear Julian,

Modification Proposal 0091 - "Extending Uniform Network Code to allow Users to raise Class 3 UK Link modification proposals"

As the Proposer of the above, Total Gas & Power Limited continues to support the Modification and believes that the Draft Modification Report has accurately represented the points that were made in the Proposal.

We would also note that the legal text that has been supplied by the Transporters, whilst different to that originally suggested by ourselves, does properly reflect the intent of the Proposal.

Yours sincerely,

(This message is sent electronically and is therefore not signed)
