**Response to UNC Modification Proposal 093 Amendment of
Interconnector UK's Meter Flow Rates**

Dear Tim

E.ON UK supports this proposal. We agree with the Proposer that this modification may facilitate delivery of additional gas supplies to the UK, thereby promoting security of supply.

Furthermore, we concur that the enhanced supply capability, resulting from implementation of this proposal is expected to better facilitate the securing of effective competition between relevant shippers and between suppliers and should also help to mitigate the risk of excessive gas prices this winter, thereby better facilitating the efficient and economic operation of the pipeline system.

Yours sincerely

Christiane Sykes
