Dear Tim

RE: UNC Modification Proposal 102 Removal of Failure Notices in respect of Energy Balancing Credit

Statoil (U.K.) Limited supports the implementation of Modification Proposal. We agree with the findings of the EBCC, that the lapse periods in respect of the notices outlined in the Proposal, represent an unnecessary and avoidable potential financial exposure to the community and as such, removing these lapse periods, providing National Grid NTS more rapid escalation to EBCC to determine issue of Termination Notices to Defaulting Users, should curtail the communities exposure to avoidable financial loss.

Yours sincerely,

Christiane Sykes
Regulatory Affairs Manager.
