"Amendment to Invoice Billing Period"
Version 1.0

Dear Tim

"Amendment to Invoice Billing Period"

ScottishPower do not support implementation of this Modification at this time.

However we do wish to state that we support the intended principle behind the Modification to limit the retrospective invoicing period allowed to Gas Transporters. We believe that before a firm decision is made on the an acceptable and workable period of retrospective invoicing that detailed discussions involving all Parties are required. We believe that the submission of Modification 122 to limit the billing of the SE Meter Error back to the commencement of the current Price Control and the proposal to submit a Review Modification to examine the enduring solution for Invoice Billing is the correct approach to take in order to maintain commercial stability.

We intend to provide more detailed comments within our response to urgent Modification 122.

Kind regards

Marie Clark
