Dear Julian

Re: UNC Modification Proposal 0119 - “Amendment to the Entry Overrun Charge”

Thank you for the opportunity to comment on this Modification Proposal.

As Proposer of this Modification Proposal, National Grid NTS supports implementation of the Proposal as the change to the overrun price mechanism proposed would if implemented remove the incentive that exists on Users in certain circumstances to take up an overrun position, thus encouraging Users to secure a right to flow gas onto the System.

Yours sincerely
