Re: Modification Proposal 0142: Extension of the Current Sunset Clauses for Registration of Capacity at NTS Exit Points

Dear Julian,

RWE npower supports the implementation of the proposed modification. Clearly, it is important that the current arrangements for Firm Capacity Applications and the NTS Offtake Capacity Registration Process for DNO Users be extended to tie in with Ofgem's decision to extend the Transitional Arrangements until October 2011 in order to allow the efficient running of the current NTS Exit regime.

If you wish to discuss any points raised in this response further, please do not hesitate to contact me.

Regards,

Chris Hill
