Dear Tim,

**RE: Modification Proposal 0146 - Acceptable Security Tools available to Users for Transportation Credit Arrangements**

E.ON UK **supports** this Proposal.

Modification Proposal 0146 seeks to specify within the UNC the range of acceptable security tools available to Users to cover any exposure beyond their Unsecured Credit limit. We agree with the Proposer that by formally specifying tools available to Users (that are acceptable to Transporters), implementation of Proposal 0146 will introduce consistent credit processes whilst helping to ensure that there are no inappropriate barriers to entry or inappropriate discrimination. With this in mind, we believe that introducing the Proposal will better facilitate the relevant objective SSC A11.1 (d) by enabling more efficient competition between relevant shippers.

If you have any questions or queries regarding this response, please do not hesitate to contact me.

Yours sincerely

**Alexandra Campbell** (by email)
