Subject: RE: Draft Modification Report 0153: Amendment of Interconnector UK's Network Entry Provisions

Draft Modification Report 0153

Interconnector (UK) Ltd ("IUK") welcomes this modification and the opportunity to comment on the draft modification report 0153.

IUK agrees that "if this Proposal is not implemented, the flow rate data in IUK's IA will become incorrect which may hinder the delivery of additional gas supplies to the UK, to the detriment of security of supply."

IUK therefore supports the implementation of this modification.

Regards

Sean Waring  
Commercial Operations Manager  
Interconnector (UK) Ltd.
