**Modification 0159 : National Grid  
NTS discretionary release of  
Interruptible NTS Entry Capacity**

Dear Julian,

Thank you for the opportunity to respond to the above proposed modification. ExxonMobil Gas Marketing Europe Limited (EMGME) strongly supports this modification. We believe that the modification would better facilitate the Relevant Objectives to operate an efficient and economic pipeline system. We think it would be very helpful if National Grid NTS could make available to the industry information as to how much capacity might be made available in this way in various supply scenarios based on the current TBE data.

Yours sincerely

Joy Chadwick
