Dear Tim,

RE: Modification Proposal 0165V - Change to Measurement Provisions Change Process

E.ON UK **supports** implementation of this Proposal. We believe it will further the efficient implementation of the UNC by allowing Code parties to focus on potentially more material industry issues. We are pleased to see that this proposal includes provision for consultation of all relevant Users before the proposed changes to a NEA or NExA are implemented.

For consistency and clarity, however, we would prefer to see written confirmation of acceptance by all relevant Users (as proposed for changes to Network Entry Provisions) for changes to the "Permitted Ranges", rather than silence from Users being interpreted or deemed as acceptance.

Yours sincerely

Richard Fairholme (by email)
