15 January 2008

Dear Julian

**Re: Code Modification Proposal 0172 Transporter Obligations Pertaining to Void and Vacant Sites**

Statoil (UK) Ltd supports this Proposal. Implementation of this proposal would improve the lines of communication between Transporters and Users, where a disconnection to a gas supply point or points is required, prior to demolition of the affected site.

Moreover, given that the proposal states that the information must be sent to the Registered User within 10 working days of such gas supply disconnection, this will result in more efficient allocation of transportation charges as Users will not remain liable for payment, where a supply point has been isolated.

Please do not hesitate to contact me if you wish to discuss any of the above.

Yours sincerely

Christiane Sykes  
UK Regulatory Affairs Manager  
Statoil (UK) Ltd
