Re: Modification Proposal 0180V:
'Replacement of file formats contained within Annex A Part 7 of the LDZ CSEP NExA'

Dear Julian,

Thank you for your invitation seeking representations with respect to the above Modification Proposal. As proposer, National Grid Gas (Distribution) supports implementation. We believe that the proposal is a pragmatic measure to ensure the currency of the file formats detailed in the LDZ CSEP Network Exit Agreement and implementation would remove the issue of de-facto non compliance given that the current content of Appendix A Part 7 does not reflect those file formats currently in use.

As the DNO is dependent in the provision of data transmitted in these formats for the purposes of Uniform Network Code settlement processes, we believe that the proposal facilitates the relevant objective of the promotion of efficiency in the implementation and administration of the network code and/or the uniform network code.

If you require any further information in respect of this representation please contact Chris Warner on 07778 150668 or email chris.warner@uk.ngrid.com.

Yours sincerely

Phil Lawton
Distribution Regulation Manager
