Dear Julian

Representation for Modification Proposal 182 “Information Provision at LNG Importation Facilities”

Thank you for your invitation seeking representation with respect to the above Modification Proposal, as proposer, National Grid NTS supports this Proposal.

Modification Proposal 0104 -Storage Information at LNG Importation Facilities was implemented on the 1 October 2007. This requires National Grid NTS to publish aggregate physical LNG stock held at the end of the gas day. Modification Proposal 182 builds upon Modification Proposal 104 by clarifying what should be published in the event that incomplete data is received by National Grid NTS and therefore avoiding the publication of incorrect or misleading data. The Proposal formalises a view originally expressed by Ofgem during the consultation process for Modification Proposal 104.

Should you require any further information to compile the final modification report please do not hesitate to get in touch.

Yours sincerely

Louise McGoldrick
