

## **Draft legal text for Modification Proposal 0184**

The Transition Document Part IIC shall be amended by inserting as a new paragraph 3 the following:

### **3. UK Link suspension to allow for technical upgrade**

- 3.1 In order to enable an upgrade of certain technical components of the UK Link System the operation of certain parts of UK Link will be suspended during such period of upgrade (the upgrade period). The period of upgrade will commence on 24 February 2008 and end on 27 February 2008.
- 3.2 The provisions of the Code shall be modified as follows:
  - (a) no revision of the Supply Point Register will be made on 25 and 26 February 2008;
  - (b) no Supply Point Confirmation may be made for a Proposed Supply Point Registration Date which is the 25 or 26 February 2008;
  - (c) the 25 and 26 February 2008 shall be deemed not to be Business Days for the purposes of TPD Section G, TPD Section M and TPD Section S4;
  - (d) for each Day (to which a Meter Reading in respect of a Performance Relevant Supply Meter relates) which immediately precedes or is within the upgrade period, the references in TPD Sections M 5.2.1 to the "**Day following**", M5.2.2 to the "**following Day**" and M5.2.3 to the "**Day following each such Day**" shall be deemed to be references to 28 February 2008; and
  - (e) for each Day during the upgrade period information (relating to Daily Read Supply Meters) provided to Users pursuant to TPD Section E1.6.2(b) will be provided on the basis in TPD Section M4.4.2(a) (as though the Day were a Failed Daily Read Day).
- 3.3 For the avoidance of doubt the suspension of the UK Link System during the upgrade period will not be a UK Link Failure.
