**Response to UNC Modification Proposal 0184:
Requirement for Partial Non-Business Days for the Purposes of
the UK Link Technology Refresh (UKLTR)**

Dear Tim

E.ON UK recognises that in order to extend the UK Link system lifetime prior to the Rewrite in 2012/13, there is a need for the UK Link Technology Refresh. The original Modification Proposal 0179 intended that Monday 25th and Tuesday 26th February were to be declared non-effective days. This would have placed serious constraints on Users who would not have been able to submit Supply Point Administration (SPA) files on these days.

It is acknowledged that the Proposer has sought to mitigate these constraints by re designating these days as partial non-Business days. Files would not be processed on these days but they may still be submitted.

Therefore E.ON UK supports Modification Proposal 0184.

Yours sincerely

Brian Durber (by email)
