Dear Julian

Modification Proposal 0191 Discontinuance of Code Credit Rules

Thank you for the opportunity to comment on the draft Modification Report prepared in respect of this Proposal.

Scottish Power supports this modification, as varied by the subsequent variation request, and also supports the proposed implementation date.

Scottish Power agrees that this Proposal removes the potential for discrepancies between the UNC and the Code Credit Rules and also any likelihood of differing interpretations.

Additionally having only a single source would reduce the administrative costs involved in maintaining the rules.

As such we are satisfied that this proposal facilitates Standard Special condition A11.1 (f) – by promoting efficiency in the implementation and administration of the UNC.

Please contact me if you have any queries on the above.

Yours Sincerely,

Gerry Hoggan
Regulation Compliance Manager
