

Variation Request

Modification Proposal 0191 “Discontinuance of Code Credit Rules”

Date: 25/01/2008

The Proposer, Wales & West Utilities, requests a variation to this Proposal, pursuant to UNC Modification Rules Section 6.5.1(c) of the UNC.

Reason for Variation

We have identified that there is a further reference to Code Credit Rules in Section G 2.1.10(b) and this has been added to the scope of the Proposal. We believe this to be an immaterial change as the Proposal already removes the concept of Code Credit Rules and therefore had this extra reference remained it would be defunct.

Nature of Variation

- The reference to "Code Credit Rules" in Section G 2.1.10 will become "Code".

Proposer's Representative

Simon Trivella (Wales & West Utilities)

Proposer

Liz Spierling (Wales & West Utilities)
