Dear Tim,

**RE: Modification Proposal 0191 - Discontinuance of Code Credit Rules**

E.ON UK **supports** implementation of this proposal.

We believe that implementation of this proposal will better facilitate the efficient administration of the Uniform Network Code (UNC) by removing obsolete rules and ensuring there is no overlap between code documents.

Given the simplistic, 'administrative' nature of this particular proposal, the appropriateness of following the UNC Modification Proposal route (as opposed to seeking Consent to Modify) has been questioned at the Mod Panel. Given the lack of certainty, it may be appropriate therefore for such Proposals to be included within the scope of the current Ofgem Code Governance review in considering the best way to deal with minor, administrative changes to the UNC.

Yours sincerely

**Richard Fairholme** (by email)
