**Response to UNC Modification Proposals 0193 :  
Removal of Certain "Gas not made available for offtake"  
Provisions from the UNC**

Dear Tim

Modification Proposal 0193 will remove the dual and potentially conflicting governance issue that will arise following the introduction of the revised Gas (Standards of Performance) Regulations in April 2008.; and consequently will facilitate the efficient administration of the UNC.

Clearly the Proposal would need to be conditional on the timely introduction of the revised Regulations. Subject to this E.ON UK is in support.

Yours sincerely

Brian Durber (by email)
