Dear Julian,

The following is the Scottish Power response to

**Modification Proposal 0198 – Extension of the Current Sunset Clauses for Registration of Capacity at NTS Exit Points**

Thank you for allowing us to respond to this modification.

We support Modification 0198, which would extend the transitional arrangements on Exit Capacity for a further year.

We now know that the decision on introducing an enduring Exit regime will not now be made until near the end of 2008, so this modification should be implemented in order that the transporters comply with their licence obligations.

We also believe that the decision on an enduring Exit regime should be carefully made and support the extension of the timescales for consideration of the alternatives.

Should you have any queries on the views expressed, please contact me on the telephone number as shown.

Yours Sincerely,

A handwritten signature in blue ink that reads "Steven Gordon".
