

Variation Request

Modification 0203 "Revision to DN Shrinkage Regime"

Date: 04/04/2008

The Proposer, National Grid Distribution, requests a variation to this Proposal, pursuant to UNC Modification Rules Section 6.5.1(c) of the UNC.

Reason for Variation

A number of minor clarifications were suggested by Modification Panel members at the meeting of the Modification Panel on 20 March 2008. National Grid Distribution agreed that such changes would enhance the Proposal and provide the necessary clarity.

Nature of Variation

- Make reference to the relevant DN Licence Condition
- Make the sentence on implementation date clearer
- Remove reference to Gemini, as it should be UK Link
- Provide clarity on the sources of information used in the assessment process

A number of additional corrections to terminology have also been made.

Proposer's Representative

Kerri Matthews (National Grid Distribution)
