**Modification 0210 – Implementation of DNPC03 (LDZ System Charges – Capacity / Commodity split and Interruptible Discounts), the alignment of Failure to Interrupt Charges and the Alignment of the IFA Charge)**

Dear Julian

Northern Gas Networks support the above UNC Modification proposal.

The proposal correctly recognises the importance of amending the Failure to Interrupt (FTI) charges and Interruptible Firm Allowance (IFA) charges to reflect the 95/5 Capacity/Commodity Split coming into effect on October 1<sup>st</sup> 2008. This change will ensure that an equivalent charge is levied consistent with the existing Commodity charge.

NGN agree that the incorrect reference in the UNC Transition Document should be amended.

Yours sincerely

Robert Cameron-Higgs  
Network Code Manager
