6 June 2008

Dear Julian

**Response to UNC Modification Proposal 0211:
RbD Audit Governance Arrangements**

The Proposal acknowledges the findings of the RbD Sub-Committee, that the scope of the audit is restricted in its ability to fully examine the feeder processes and is limited to certain transporter activities.

It also acknowledges that further development is necessary to facilitate the introduction of a wider and more encompassing audit involving the activities of Users and any transporter processes not currently covered. We believe that such a wider remit is necessary in order to ensure the integrity of the RbD process.

We are assured by the fact that the Proposal includes a provision for a retrospective audit should the UNC Committee require it.

Therefore E.ON UK supports this Proposal.

Yours sincerely

Brian Durber (by email)
