**UNC Modification Proposal 0211 – “RbD Audit Governance Arrangements
Modification”**

Dear Julian,

Thank you for your invitation seeking representation with respect to the above Modification Proposal. National Grid NTS supports the implementation of this proposal on the basis that suspending the requirement for an annual audit of the RbD process furthers the achievement of the relevant objectives by promoting efficiency in the implementation and administration of the UNC. National Grid believes that the ability of the UNC Committee to instruct a retrospective audit in the event of industry concerns acts to mitigate the risk that the RbD process is being managed inappropriately.

Please let me know if you require any further information to enable preparation of the Final Modification Report.

Yours sincerely,

Adam Sims
Commercial Analyst
