Jon Dixon
Head of Industry Codes and Licensing
Office of Gas and Electricity Markets
9 Millbank
London SW1P 3GE

Dear Mr Hull

Response in support of Urgent Proposal UNC212: Revision of the Rough Connection Agreement

Eni UK Limited supports the modification UNC212 on the basis that it promotes the availability of additional injectability to users of Rough storage, enhancing their ability to store gas ahead of the coming winter 2008/9, and thereby enhancing supply security of the GB market.

I remain available for any clarification as required.

Yours sincerely,

Richard Pugh (not signed as sent by e-mail)
