Dear Julian,

The following is the Scottish Power response to

UNC Modification Proposal 0219 – **Publication of UK Wholesale Gas Market liquidity Data**

Thank you for allowing us to respond to this modification.

**We support Modification 0219.**

The modification in our view will further the relevant objectives as set out in Standard Special Condition A11 (1) of the Gas Transporters Licence, by maintaining the efficient and economic operation of the pipe-line system while enhancing effective competition.

The issue is not simply that the information is available but how it is presented and we believe this creates a level playing field for shippers with regards to access to this information.

We believe the benefits outweigh the small costs involved in the publication of the information as set out in the modification.

Should you have any queries on the views expressed, please contact me on the telephone number as shown.

Yours Sincerely,

Commercial & Regulation Manager (Gas)  
Scottish Power Energy Wholesale
