**Modification Proposal 0220  
'Clarification Invoicing Arrangements for Late Payment '**

Dear Bob,

Thank you for your invitation seeking representation with respect to the above Modification Proposal.

National Grid Transmission supports this Modification Proposal.

We agree with the proposer that the timing and raising of Interest Invoices would benefit from being clarified within the UNC. We also agree that Interest Invoices for late payment should be raised within the proposed 35 day period after the late payments relevant invoice due date.

**2) Extent to which implementation of this Modification proposal would better facilitate the achievement (for the purposes of each Transporters Licence) of the Relevant Objectives:**

**Standard Special Condition A11.1 (f) so far as is consistent with sub- paragraphs (a) to (e), the promotion of efficiency in the implementation and administration of the network code and/or uniform network code;**

We agree with the proposer that, if implemented, this Proposal ensures that Interest Invoices are raised in a timely manner and that this may promote efficiency in the implementation and administration of the UNC.

**6) The development implications and other implications for the UK Link System of the Transporters, related computer systems of each Transporter and related computer systems of Users**

If implemented we do not anticipate that this Proposal will have any significant implications on UK Link systems or on National Grid related computer systems.

Please let me know if you require any further information to enable preparation of the Final Modification Report.

Yours sincerely

Claire Thorneywork
