Subject: RE: New Modification Proposal 0222: Amendment of Interconnector
UK's Minimum Wobbe Limit

26/08/2008 17:28

Dear Sirs,

Thank you for consulting on the above proposal.

BOC is pleased to support Modification Proposal 0222 as it believes that
1 the shared point of entry will lead to rapid dilution effects within
the UK pipeline network

2 that the process control on gas-fired generation equipment would be
capable of accommodating minor deviations

3 domestic users would not be materially effected,
and

4 security of supply would be enhanced.

Christopher Webb
